Available Skills

Development Process Administrator / Scrum Master / Team Leading (- using GitHub and Automated deployments. I am adept at handling feature-based software development in fast-paced, agile environments, including overseeing team commits, conducting git reviews and integrating deployments.

Linux Based Development (12+ years experience with Ubuntu, Mint & Fedora. Excellent command over - Terminal tools, Docker, Versioning control using GIT, Shell access management, FTP/SSH tools and setup, RDP & VPN etc)

Advanced PHP (Web Scripting, Crontab, PHP extensions - including: Curl, GD, ZIP, XML, FileInfo, Date&Time, DOM, FTP, JSON/LDAP, MCRYPT, OpenSSL, MySQLi, PostgreSQL, IMAP/POP3 etc)

PHP Frameworks Laravel, ZendFramework 1.x, CodeIgniter, Custom Framework Stacks

WordPress (Customization, Theming, Plugins Development, Multi Site Development, WooCommerce Development, Core Customizations, WP Crons, SEO Tools, Caching Technologies, Site Speed Enhancements etc)

JavaScript (Core JS, jQuery, jQueryUI and Animations, jQuery-Ajax, Bootstrap.js etc)

.NET (Maintaining project setups, Server environments & Handling Development Process in a team of .NET professionals as a Team Lead)

NodeJS & Angular (NodeJS project setups using Linux, Managing Packages using NPM, ExpressJS, Routes, Microservice APIs for frontend, Providing backend for Angular/React based apps etc)

Databases (MySQL/MariaDB, MSSQL, Postgres, Google Firebase, DynamoDB, MongoDB with NodeJS), GraphQL etc.

Google Cloud Services (Google Cloud API Integrations (My Business API including Accounts, Profile, Reviews etc), Google Static & Dynamic Maps API, Google Places API integration, Single Sign-On / OAuth).

AWS (EC2, EBS, S3 Bucket, Route53, Elastic IPs, Load Balancers using AWS, DynamoDB, Lambda Functions, SES etc.)

LAMP Servers (Apache / Httpd, VHost configurations, Load Balancing, Environment / Development Variables setup etc)

* **Additional CMS that I have worked on** - Magento (Theme and Addons/Extension development), TextPattern, Expression Engine, Drupal

Additional Skills - Extensive understanding of frontend design tools (e.g. Gimp based Graphics Editing, HTML5 and CSS3, Bootstrap, Third party design tools integrations like: Fontawesome, Material Design Icons, Google Fonts etc)
